THE ATLANTA CONSTITUTION.

BY W. A. HEMPHILL & CO. | ATLANTA, GEORGIA, SATURDAY, JULY 9, 1870. | VOLUME III---NUMBER 16

Evening Edition.

Atlanta, Georgia, July 8, 1870.

☞ For interesting matter, see fourth page.

☞ It is supposed that the discussion of the proposed dogma of the infallibility will close this week.

☞ We are under obligations to Hon. John W. Johnson, United States Senator from Virginia, for valuable public documents.

☞ July 3d was a very hot day in San Francisco. The thermometer stood at 98 degrees in the shade. In some places in the interior of California it stood at 115 degrees.

☞ From the meagre supply of exchanges in this editorial sanctum, it is presumed that editors, printers, publishers, or post-office employees, have been on a big spree over the Fourth of July.

☞ Newspaperdom was never so destitute of interest as just now. Editors seem to have but one sensation, and that is to take things *Coolie*, and make the most of the situation this hot weather.

☞ The Darien Canal project has not been altogether abandoned. The surveying expedition, under Captain Selfridge, will return in November next and make a re-survey of the San Blas route. The expedition returned on account of the want of supplies and funds.

☞ Spurgeon, the most popular preacher in London, declines an invitation to lecture before the Boston Lyceum. He says he has no ambition in that line, is glad to preach, but not if there is a charge at the door. "Moreover," he says, "I have no kind of idea of visiting the States."

☞ The Tennessee journals are exercised over the question of holding a convention to nominate candidates for the Supreme bench.

Edwin H. Ewing, an old and distinguished lawyer, declines to submit his claims to a convention, and "there is the rub." He is the gentleman who, during the war, wrote a letter to the Tennesseeans imprisoned at Johnson's Island, urging them to take the oath and go home, that called forth a most scathing rebuke from the "boys in gray," which was read with intense interest both North and South. How that he has now grown so great as to cause so many words to flow and so much ink to be spilled, is a mystery to out-siders, who thought that the Johnson Islanders trimmed him down "to the little end of nothing."

Three Bullocks.

The document sent to the Legislature of Georgia, on yesterday, and signed Rufus B. Bullock, has excited some astonishment and no little merriment.

Some call it the Governor's message. It was addressed to the Provisional Legislature, but no State was mentioned. Some say that there is a yoke of Bullocks in town, one the Governor and the other not the Governor. Others that Rufus B. Bullock is a triune personage, consisting of Bullock Governor, Bullock Provisional Governor, and Bullock citizen, the role of either of which he plays, as occasion demands, to further his "prolongation" scheme.

Some say that the Governor has abdicated. Others that the Governor is so beside himself in his anxiety to prolong his term of office, that he has just determined to let on as though he never has been, and is not now, Governor.

Prison Discipline.

There is no subject so worthy of benevolent interest as that of prison discipline. Whether his incarceration is punitive or for the purpose of safe-keeping, the prisoner who is wholly under the guardianship of society, and utterly unable to remedy by his own act the inconveniences growing out of the neglect, tyranny, or other malfeasance of his keepers, should be carefully, intelligently, and humanely cared for by the government.

Society has no right to inflict the punishment of breathing a tainted atmosphere, of lying down in the midst filth and vermin, and of eating unwholesome food upon a prisoner who has not yet been tried and condemned by a jury of his peers. Presumed in the eye of the law to be innocent until proven to be guilty, while awaiting a trial no prisoner ought to have greater inconveniences put upon him than is consistent with his safe-keeping until the day of his condemnation or acquittal.

Those prisoners who are undergoing punitive confinement should be so treated, if possible, as to insure their reform, and not in such a manner as to intensify their propensity to crime.

Prison reform associations are among the most laudable of benevolent societies. The very virtue of their mission is such as to render them above the suspicion of selfishness. Parties in whose behalf they labor are destitute of influence, and therefore cannot, in general, reciprocate the beneficence performed in kind or otherwise.

The man or woman who, like Howard, "charitably circumnavigates" even the prisons of a single State, has a task not calculated to delight the soul, except as it may practically educate it, in that Christian grace, implied in the words, "I was sick and in prison and ye visited me," and which finds its delights in the consciousness of having done a purely unselfish service to wretched humanity.

The Legislature should see to it that jails and State prisons are properly and humanely governed. Good people everywhere, who feel that a part, at least, of their thoughts, time and energies are due to society, ought to interest themselves in the subject of prison discipline and prison reform. How crime may be discouraged, the criminal be reformed and made a useful member of society, and the innocent protected from unjust punishment, are topics worthy of intelligent investigation and benevolent effort.

☞ If our lady readers wish to keep a bouquet fresh, let them drop a teaspoonful of powdered charcoal into the water intended for the flower-stalks, and they will keep their freshness and perfume for several days, and look and smell the same as those just gathered. The charcoal settles at the bottom of the vase, the water remaining clear.

☞ An engagement is only a common green-back performance; but marriage is the regular legal tender.

Georgia News.

Mrs. Martha Gibson, wife of Dr. J. G. Gibson, died in Eatonton on Friday last.

The boll worm has made its appearance in Bibb county.

Greenesboro is flooded with Life Insurance Agents.

Some of the Maconites wish to extend the corporation line so as to include Vineville.

The Eatonton Press and Messenger reports crop prospects as still good in that county.

Rev. E. W. Warren, pastor of the First Baptist Church in Macon, has been granted two months' leave of absence.

A gentleman from Brooklyn, New York, has invested $8,500 in lands in Greene county.

An excursion party leaves Greenesboro, on the 13th instant, to visit Toccoa and Tallulah Falls, and another, on the 19th instant, to visit Lookout Mountain.

The Sunday school meeting at Macon the other night was addressed by Professor Bass, General W. M. Browne and W. C. Anderson.

There was a very slim attendance of delegates from adjoining counties at the recent meeting in Milledgeville, to consider the question of organizing a district fair.

At the annual meeting of the stockholders of the Mobile and Girard Railroad, at Columbus, W. W. Wadley was elected President, and R. L. Mott, John King, L. T. Downing, D. DeLauney, John Peabody, U. L. Jones, directors.

One-eyed Henry, a Macon 15th amendment, was fined $100 and thirty days' imprisonment, by the Mayor, for cutting another 15th amendment. He was released on a writ of habeas corpus, by the Ordinary, on the ground that the Mayor had no jurisdiction of the case.

Among the students at Georgetown College are the following from Georgia: Charles A. Clayton, Sanford H. Cohen, Henry C. Cohen, J. Gibbs Gardiner, J. Jones Gardiner, Paul P. Heney, Charles P. Mullen, from Augusta; Henry J. Lamar, of Macon; John J. Lynch, of Atlanta, and Dennis P. O'Connor, of Savannah.

The City Council of Columbus have passed a resolution that all action in reference to an appropriation to the Whitesville and LaGrange, or Hamilton and King's Gap Railroad, be deferred until the route for the proposed railroad is selected, and the different counties on the line of said railroad have made valid subscriptions of such amounts as will be acceptable to the city of Columbus, and protect her in whatever subscription she may make, and until State aid shall have been obtained to the extent of $16,000 per mile thereto.

Dr. Stephenson, of Georgia, has written a work on the effects of the Fifteenth Amendment on the morals of the people of the United States by amalgamation. He has less fears from the negro and Indian than from the Mongol, who is a superior species of the human family--more fascinating--and the nations of China, Japan and India can flood our land with millions of their paupers, thieves and prostitutes yearly, which will inevitably result in the same state of anarchy and mongrelism that has been obtained from the policy for the last three thousand years. The doctor's arguments, proving that they, as well as the Indians and negroes, are distinct species of the human race, are positive, and also that Ham was not the progenitor of the black race. The work winds up by proving that the formation of this Continent was contemporaneous with that of the Eastern, and not sloughed off, in Peleg's time.

ASSOCIATED PRESS DISPATCHES.

Washington News.

WASHINGTON, July 8.—Indian affairs are assuming a serious aspect. The North Fork miners, in Colorado, have been massacred.

The Utes and Cheyennes are fighting among themselves.

Sherman has advices that the Sioux are preparing for raids.

Advices to the Quaker Commission are more pacific.

Akerman was in the Cabinet this morning.

Congressional.

The Senate occupied all the morning on the bill relieving seventy-five Kentuckians from their political disabilities. An amendment covering some 5,000 persons was offered.

The House passed the River Harbor bill as amended by the Senate, which goes to the President; then went into a Committee of the Whole on the Deficiency Appropriation bill.

NORFOLK, June 8.—Sheriff Mayhew and Deputy Sheriff Stevens, to-day, completed the removal of the seven hundred negro squatters, who have, since 1863, occupied the Taylor farm, nine miles from Norfolk. The negroes were well armed, but offered no forcible resistance to the execution of the writ of ejectment. A large part of the squatters have been settled on General Butler's land, near Hampton.

A large and spirited mass meeting of the citizens was held last night, to consider the proposed subscription of one million dollars to the Norfolk and Great Western Railroad — Ex-Mayor DeCardy in the chair. The meeting was addressed by Colonel E. G. Lindsey, Judge Asa Biggs, Colonel Joseph T. Wilson and Dr. Bayne. The meeting strongly endorsed the proposed subscription, and believed the time had come when intelligent and well directed enterprise must take the place of traditional waiting for greatness to be forced upon us. The route of the Norfolk and Great Western Railroad extends from Norfolk via Danville, Virginia, to Bristol, on the Virginia and Tennessee Railroad.

CHICAGO, July 8.—The rain throughout the Northwest will immensely benefit the crops.

FOREIGN.

HAVANA, July 8.—Derodas has returned, and states that the Spaniards are only opposed by small wandering parties.

PARIS, July 8.—The feeling regarding the Spanish question is somewhat more assuring this morning.

The Constitutionnel, the Imperial organ, announces, this morning, that Spain has received instructions to give the French Government official notice of the candidacy of Hohenzollern. The Constitutionnel adds: "When France becomes convinced of the persistence of Spain in this matter, she will terminate her diplomatic relations with her."

REVISION OF THE SCRIPTURES—FIRST DAY'S WORK AND PROGRESS.—The revisers of the authorized version of the New Testament met for the first time yesterday, at the Jerusalem Chamber, at twelve o'clock, and sat for upwards of five hours.

The Bishop of Gloucester and Bristol acted as chairman.

The holy communion was administered at half-past eleven by the Dean of Westminster, in Henry the Seventh's chapel, and was attended by all the members of the company with the exception of three or four, including those unavoidably absent from London owing to illness or special engagements. Twenty were present, including the Bishop of Llandaff, the chairman of the Old Testament Company. All preliminary arrangements connected with the form and carrying on of the work were discussed and agreed to, and some progress was made in the actual work. It would be premature to express any opinion on a first meeting, but it may be said that the whole tone and character of the meeting were such as to suggest a well-grounded belief that this great and important work will be carried on with harmony, promptitude and success. The company afterwards dined with the Bishop of Gloucester and Bristol in Portland Place.

ATLANTA PRICE-CURRENT.

[CORRECTED DAILY.]

CONSTITUTION OFFICE, ATLANTA, July 8, 3 o'clock, P. M.

Dull! dull! dull! is the verdict against business in all quarters this morning. The cool breeze throughout the city was delightful in the absence of any change in quotations.

There is a fair demand for corn. Prime white corn is scarce.

COTTON—Market dull at 17 for middlings; 16 for low middlings; 16 for good ordinary, and 14c for ordinary. Receipts light.

MONETARY—Gold buying at 1 10; selling at 1 12. Silver buying at 1 04; selling at 1 08. Exchange on New York buying at par; selling at ¼ premium.

GROCERIES.—Corn meal 1 45, by car load, 1 50 in small lots. Rice, 9½c, tierces. Soap, 7a9c. Candles, adamantine, 15c; Tallow 12a15c. Sugars, A, 16c; Extra C, 15; Yellow, C, 12a13; Brown, 14a14½. "BAD BLOOD."

"The Life is the Blood."

FROM it we derive our strength, beauty, and mental capabilities. It is the centre of our being, around which revolves all that makes existence happy. When this source is corrupted the painful effects are visible in many shapes, prominent among which is

SCROFULA.

This is a taint or infection of the human organism, and probably no one is wholly free from it. It exhibits itself in various shapes—as Ulcers and Sores, Decayed Bones, Diseased Scalp, Sore Eyes, Weak and Diseased Joints, St. Vitus' Dance, Foul Discharges from the Nostrils, Eruptions, Glandular Swellings, Throat Affections, Rheumatism, Heart Affections, Nervous Disorders, Barrenness, Disorders of the Womb, Dropsy, Syphilitic Affeions, Liver Complaint, Salt Rheum, Dyspepsia, Neuralgia, Loss of Manhood and General Debility.

It has been the custom to treat these diseases with Mercury and other Mineral substances, which, though ometimes producing a cure, often prove injurious and entails misery in after life. The long known injurious properties of these so called alteratives and purifiers has led the philanthropical man of science to explore the arena of nature, the result of which has been the discovery of a vegetable product which possess the power of eradicating these Taints from the Blood.

DR. TUTT'S

COMPOUND EXTRACT OF

SARSAPARILLA AND QUEEN'S DELIGHT

Is the acknowledged antidote to all Blood Diseases. By its use the afflictions above enumerated can be permanently banished, and the Source—the Centre of Life—the Blood, be maintained in all its purity and vigor.

For Diseases produced by the use of Mercury, and for Syphilis, with its train of evils, this compound is the only sure antidote.

To the poor creature, enfeebled in mind and body, by secret practices, whose nerves are unstrung, and countenance downcast

B. A. FAHNESTOCK'S VERMIFUGE.

WHY is it that so many children die under the age of five years? That a large proportion of children die under that age, has long been a subject of remark, and without a satisfactory cause ascertained, it is certain.

Also, it is known that worms exist in the human system from its earliest infancy; therefore parents, especially mothers, who are interested with their children, can not be too observing of the first symptoms of worms; for so surely as they exist, can they be safely and certainly removed from the most Delicate Infant, by the timely use of

B. A. Fahnestock's Vermifuge.

It is perfectly harmless, contains no Mercury, being a purely Vegetable Composition, and may be administered with the utmost safety to children of all ages.

Worm Confections, made more for the purpose of pleasing the palate than of overcoming the disease, have been manufactured all over the country, but their short lease of life is nearly exhausted, and B. A. Fahnestock's Vermifuge continues to grow in favor daily.

CAUTION.

Should occasion require you to purchase B. A. Fahnestock's Vermifuge, be particularly careful too see that the initials are B. A. This is the article that has been so

Favorably Known Since 1829,

And purchasers must insist on having it, if they do not wish to have an invitiation forced upon them.

THE WORLD'S WONDER.

DR. ABBETT'S ANTI-DYSPEPTIC

—OR—

LIVER MEDICINE

A SAFE and certain cure for all kinds of Liver Complaints, and all diseases and indispositions that originate from a diseased state or inactivity of the Liver, such as

Chronic and Acute Inflammations of the Liver,
Dyspepsia, Sick Headache,
Sourness of the Stomach,
Loss of Appetite,
Lowliness of Spirits, Colic,
Costiveness, Fever, Ague,
Bilious Fever, Dropsy and Jaundice.

These Medicines are purely Vegetable, and perfectly harmless; but their efficacy is too permanently established in all the Southern and Western States to require any further recommendations. The wise will not fail to give them a fair trial—this is all that is asked.

LaGRANGE, GA., DEC. 3, 1869.

MESSRS. CRAWFORD & WALKER, West Point, Ga. Gentlemen: Having witnessed almost daily, for the last fifteen years, the great efficacy of the preparation you are now putting up, known as "Abbett's Medicine," it affords me pleasure to state that I know of no combinations or preparation equal to it in the treatment of Liver Diseases of whatever character, and would cordially recommend it to all who are suffering from derangement of the Liver, and especially the Dyspeptic.

I am, very respectfully,
T. S. BRADFIELD, Druggist.

WEST POINT, GA., OCT. 15, 1869.

MESSRS. CRAWFORD & WALKER: Gentlemen—I can honestly and confidently recommend L. B. Abbett's Liver or Dyspeptic Medicine, as prepared by you, to the favorable notice of the suffering public. Having used this Medicine myself in my family for twenty years, I can highly recommend it for removing pain or flatulency from the stomach, caused by indigestion. It also has a happy effect in removing constipation of the bowels. I believe it to be the best universal remedy the world has yet discovered for the above named diseases. With my best wishes to you in introducing this valuable Medicine to the public, I remain, Yours, truly, A. K. KENDRICK.

LIPPMAN'S

GREAT

GERMAN BITTERS,

TONIC, INVIGORANT,

—AND—

PALATABLE STIMULANT.

BY far the best and purest preparation in the world for Dyspepsia. Loss of Appetite. Liver Complaint; a sure preventive for Fever and Ague, Bilious, Remittent and Intermittent Fevers.

LIPMANN'S

Great German Bitters,

Are a Medicinal Cordial, possessing powerful alterative, anti-bilious and invigorating properties, that can be taken by old or young, male or female, with beneficial results.

FOR FEMALES,

LIPPMAN'S BITTERS are invaluable. They build up the system, bring health and bloom to the cheek of the invalids. As a remedy for nervous wakefulness, to which females are especially subject, they are fast superseding all other stimulants.

LIPPMAN'S

Great German Bitters,

Are a Cordial for the aged, and a sure protection against malarious dis ases. Persons living in damp and malarious climates will find these Bitters a valuable remedy; a small dose taken occassionally, will prevent many day's and, perhaps week's of sickness.

No license at all necessary to sell these Bitters.

SAVANNAH, GA., March 16, 1870.

MESSRS. JACOB LIPPMAN & BRO., Savannah, Ga.:

GENTS: I have before me your esteemed letter of the 14th instant, containing various documents relative to your "German Bitters." After a careful examination, I must confess that your Bitters is really what you represent it to be, an old German recipe of Dr. Mitcherlich, of Berlin, Prussia. It will, no doubt, be excellent for Dyspepsia, general debility and nervous diseases, and it is a good preventive of Chills and Fevers. I find it to be the most delightful and pleasant stomachic.

I remain, yours truly,

[Signed] AUG. P. WETTER.

KIRKLAND MILLS, GA., March 22, 1870.

MESSRS. JACOB LIPPMAN & BRO., Druggists, Savannah, Ga.:

GENTLEMEN: I have introduced your Great German Bitters here, to my customers and friends, and I find a better sale for them than any I have ever kept before. Those who have tried them, approve of them very highly, and I do not hesitate in saying that they are far superior in value to any other Bitters now in use.

Yours, respectfully,

[Signed] W. KIRKLAND.

OFFICIAL JOURNAL OF THE CITY.

THE LARGEST CITY, COUNTY AND STATE CIRCULATION. *DEFIES REFUTATION.*

BY W. A. HEMPHILL & CO.

I. W. AVERY, Editor.

Morning Edition.

Atlanta, Georgia, July 9, 1870.

To Correspondents.

We invite correspondence from all parts of the State about the crops, and local incidents, but we would urge upon our friends to give us the facts in a concise manner, and to WRITE ON ONLY ONE SIDE OF THE SHEET. *Please observe this.*

☞ We acknowledge the receipt of an invitation to the annual celebration of the Phi Kappa Society of the University of Georgia, to come off on the 1st of August.

☞ No Democratic papers in this State take the ground, or admit that the members of the present Legislature have the legal or constitutional right to prolong their terms of office. The responsibility of unconstitutionally preventing an election the coming fall is a fearful one. Some members of the present Legislature know it and feel it. Hence, journals in the interest of the Bullock faction, that pervert the truth by recklessly asserting that candid Democrats admit the right of the Legislature to prolong its term of service, are simply trying to throw dust in the eyes of certain Republican members of the Assembly, who have some respect for the rights of their neighbors, and are kicking in the traces under the lash of Bullock, Blodgett & Co.

☞ The present and quondam friends of Governor Bullock, who express an anxiety about his replenishing his purse out of the assets of the proprietors of THE CONSTITUTION, are respectfully and courteously informed that the proprietors of THE CONSTITUTION, being defendants to the suit, are not called upon to answer until the plaintiff is ready to press his suit. The defendants are ready for the trial, let it be when it will. Judging, however, by the accumulation of cases on the dockets of Fulton Superior Court, and the absence of a Judge, we would suppose that that event is in the "dim, uncertain future." Call upon the plaintiff, gentlemen, if you would know.

Our Governor.

There is a feeling of melancholy which comes over us in our review of this unhappy man's brief career in spite of a thousand incentives to the indulgence of an energetic hate and scorn. He came before the people of this great State, just about two years ago, as complete a stranger as it he had just descended astraddle of an ærolite from the moon. No man knew from whence he came, or cared more for his destiny than that one feels for a grain of sand or an insect that passes by on the wind. Soon, however, the public was forced to recognize his existence, and soon his presence, for it was bruited about that he had helped the packing of the now historic Georgia Reconstruction Convention, and was responsible for the presence of nine of the malign spirits which went to the making up of that outrage on American liberty and human rights. Those were the days when men sought bad eminence, and it was only the will or the power to do evil which seemed wanting to give men prominence and prestige. But even looked at in this light, it is yet a marvel, which passes human experience or belief, how, in this year of Christ, such a man as Rufus B. Bullock came into his present circumstances and got possession of such awful powers. Great and awing as this responsibility looks to every other human being, it seems to have impressed this mass of inanity as lightly as it would have done a mere animal, and our Governor goes running about over the country, and when at home, handling and fooling with the edged-tools of Executive powers with the recklessness of a monkey careering through a powder magazine with a red-hot poker in his paw. The man seems absolutely divested of all moral sense, or sense of any sort, which could enable him to see or feel what tremendous interests he is trifling with. Look at the shameful manner he has disturbed the criminal justice of the State by his abuse of the pardoning power? Miscreants, whose crimes humanity itself cries out against, have been his pets. A premium, as it were, has been offered by this wanton disregard of social safety and order for all sorts of crime and outrage. With a blushless hardihood that one would suppose the imps in pandemonium would be incapable of, he pardons, in advance, such sins against the law and the public morality as make decent men stand aghast. And now, after five years of quiet and law-abiding patience on the part of this much injured people, if Governor Bullock could have his way this day, he would billet upon us a reckless and [illegible] militia mob which would place life and property up for a sport and a jest.

Radicals of Georgia, is it possible that out of all your members, you can find the duplicate of this sad character? If he is blind to consequences, and to the coming terrible day of account, which now the prudent man sees dawning already, are you going in his wake, to fetch up in his slough of retribution and social outlawry? We cannot think it predicable of sensible men, who have yet left in their breasts the instinct of self-preservation. Upon this class of men we call. We appeal to you who have neither lot nor hope in wreck or ruin—who must live and die here, and have, and can have no other destiny than that of our noble old State—to put a stop to this trifling, on the part of a mere adventurer, with the dearest interests of this great State. You can do it; but you should do it speedily, if you would be in time to get abreast with the grand conservative army that are now marshaling its hosts to the rescue.

Mortuary Report.

From the report of the chairman of the Board of Health of Atlanta, it appears that during the quarter ending June 30, 1870, 101 whites and 146 colored people died in the city of Atlanta, making a total of 247—being 98 more than died during the second quarter of 1866, 154 more than during the corresponding quarter of 1867, 156 more than that of 1868, and 133 more than the second quarter of 1869.

In commenting on these statistics, some of our city contemporaries have overlooked the fact that, ever since early in the last winter, measles has been an epidemic here, that whooping cough is also prevalent, and that at the opening of summer, children actively teething are liable to cholera infantum, and chronic diarrhœa and dysentery. Those recently convalescing, from either measles or whooping cough, are very liable to be hurried to the grave in any locality when teething, occurring in extremely hot weather, supervenes.

Of those who died during the month of June alone, twenty-four whites and thirty-five colored were under ten years of age. The aggregate mortality during the month was only ninety-two.

The greater mortality among the colored children tells a mournful tale of the effects of a disregard of hygiene and an ignorance of sanitary laws.

Atlanta is a salubrious locality, but here no more than elsewhere can the laws of hygiene be disregarded with impunity.

Negroes or whites crowded to suffocation in miserable huts, whose surroundings are such as to forbid the burying out of sight or scent the refuse of human habitations, can be healthy nowhere. Especially is it inhuman to attempt to rear children under such circumstances. True, some survive, but the mortality is necessarily very large.

It is desirable that a system of registration of deaths be adopted and rigidly enforced.

Landlords owe it to their own interest, and to the community, to see that the houses they let are not over-crowded with inmates.

It is no uncommon occurrence for the physicians of this city to be called to see a sick child lying in an apartment eighteen feet square where from ten to fifteen human beings lodge, and in which their cooking and washing are also done.

An abundance of water, and a thorough system of sewers are, of course, a necessity, and parties best informed in regard to hygiene are most urgent in favor of them. But how to correct the habits of ignorant violators of the laws of health, who deny the right of the public authorities to direct their mode of life, is a question of serious moment.

Just as in cantonments of regiments and armies, communities have a right to require a rigid inspection of the premises of every inhabitant, and to police every one's premises. Society has a right to protect itself from infaction.

Quarentines are universally acknowledged to be necessary inconveniences to commerce. So an internal sanitary police is a necessary prophylactic against diseases which may have their origin at home. The former is a preventive of exoteric diseases. The latter prevents exoteric causes from producing diseases. Quarentines are a necessary inconvenience. Sanitary inspections are imperatively required to protect the population from domestic sources of disease. Let us have them.

On Sunday last, July 3, Mr. D. M. Smith, familiarly called Doc. Smith, was shot near Pitts' old mill, about two miles from Newbern, Newton county, by Wm. McCart. Mr. Smith had struck Mrs. McCart, mother of Mr. McCart, in a difficulty about her children's absence from their work on his farm, (the mother and children being in his employ), a week before the shooting. William went to talk to Mr. Smith about the affair, on the fatal morning, and found him in his cow-pen. Mr. S. said he did strike Mrs. McCart, and asked if he took up the quarrel. Upon receiving an affirmative reply, Mr. Smith moved as if to approach William, who then drew a revolving pistol and fired, the first ball striking a cow, and the second wounding Mr. S. in the arm and breast, causing his death in a few hours. McCart then fled, and has not yet been arrested. The Coroner's jury returned a verdict in accordance with these facts.

A Sound, Sensible Letter—Atlanta Merchants, Read and Ponder—Another Railroad.

UNION SPRINGS, ALA., July 5, 1870.

Editors Constitution: Your city has risen, Phœnix-like, from her ashes, and has already built up the waste places caused by the late war. The astonishing rapidity with which this has been done, and the steady growth which has characterized her continually increasing prosperity, is the wonder of the day. With a wisdom befitting the enterprise which has already accomplished so much in so short a time, your men of capital and foresight, not content with that degree of prosperity which has made Atlanta the "Gate City," are stretching out their arms, Briareus-like, in other directions, reaching after trade and travel which have hitherto enriched other cities. Ever and anon, a representative of one or another of your thriving business houses is seen upon our streets mingling with our merchants.

Many of our most enterprising citizens and business men are looking to an outlet in your direction, and are becoming anxious for a more direct and speedy communication with you. At present the channel of communication is too circuitous to warrant any great degree of business between our merchants. At present that communication is by one of three routes, viz: By Columbus and Macon, or by Columbus, Opelika and West Point, or by Montgomery, Opelika and West Point. By the first, the distance is in the neighborhood of 250 miles; by the second, 200 miles, and by the third, 219 miles. Not having a table of distances at hand, I can only approximate in the above figures. It is believed, however, they are not very wide of the mark.

If you look at the map of Alabama, you will see that their is but a short link wanting to secure direct communication by railroad upon an air-line between Union Springs and Atlanta. This link supplied would shorten the distance by rail, between the two places, about forty miles, or almost within a fraction of the entire distance from this place to Opelika. It is to this gap in your railroad connections that I desire to call your attention through your valuable columns, and that of those of your men of foresight who are always ready to undertake any enterprise which promises future certain benefits to your city.

A railroad supplying this link would pass between the thriving towns and prosperous neighborhoods of Salem and Auburn, Society Hill and Tuskegee, Creek Stand and Cotton Valley, and through some of the best upland and bottom lands in Eastern Alabama, a section of country as full of promise of freight and travel as any of the same extent yet undeveloped in the South. At this place, it would connect with the Mobile and Girard Railroad, thus securing thirty more miles of an air line to Troy, in Pike county, and enabling you to compete for the rich traffic of a wide and fertile region tributary to Troy, which is now divided between Eufaula and Greenville, Montgomery and Columbus. The road from Opelika to Union Springs built, will give Atlanta twenty or twenty-five miles of additional air line connection through the most fertile and populous portion of Eastern Alabama.

At this point it would connect with the Mobile and Girard Railroad, which has just been completed to Troy, and with the Montgomery and Eufaula Railroad, upon which cars are now running from Montgomery to within two and a half miles of this place, all of which is under contract to be finished to Eufaula by July or October, 1871. It is not necessary to elaborate the advantages these connections, at this point, would add to your city. I merely call attention to them with the hope of stimulating such an interest as would cause the people of Atlanta to investigate them and build the road necessary to fill up the link now wanting.

LaGrange (Georgia) Female Colleges and Male High School Commencement Exercises.

LAGRANGE, GA., July 7, 1870.

Editors Constitution: The excellent colleges and schools of LaGrange deserve more than a passing notice, for they are of a very high order of character, have accomplished instructors, and are warmly supported and encouraged. There is no place more suitable for fine schools than this beautiful "City of Gardens." The people are unusually intelligent and well educated, noted for the refinement and elegance of their manners, their abundant hospitality and the rare beauty of its fair women, as well as politeness and courtesy of its men.

The city boasts two successful female colleges and a flourishing male high school.

LaGrange Female College is under control of Rev. Morgan Callaway, A. M., and closed its exercises nearly a month ago. President C. has made an excellent beginning and is rapidly acquiring a splendid reputation.

The Southern Female College is under charge of Professor I. F. Cox, A.M., who has been, for over a dozen years, identified with the educational interests of LaGrange. He is too well known throughout Georgia and Alabama to require commendation at our hands. His college numbers this session over 125 young ladies and girls, and graduated 12 young ladies yesterday.

The closing exercises were of a brilliant character. Rev. S. P. Callaway delivered the commencement sermon in a very impressive and appropriate manner. Monday night, Mrs. F. M. Pressley, in charge of the junior pupils of the music department, gave a musical and dramatic entertainment, which was largely attended and greatly praised. Tuesday, 13 young ladies of the junior class read compositions of a very creditable kind. Miss Ida Ferrell, Miss Dovie Edwards, and Miss Gertrude Davis deserve especial mention. T. B. Stubbs, Esq., of Montgomery, Alabama, delivered a fine address. Tuesday night occurred the Annual Grand Concert, under charge of Professor H. Schirmacker, a graduate of Leipsic Conservatory. I enclose you a programme. I can only say, truly, that it was a most superb success.

Wednesday was commencement day. Twelve young ladies were graduated with all the honors of the college. Four of the compositions were splendid. "Grapes of Eshchol," by Miss Swanson, "Man's Rights," by Miss Little, "Twilight Musings," by Miss Gorham, "Spring, etc.," by Miss B. Smith, created much enthusiasm. President Cox's parting words were brief and pointed. The annual address, by Colonel Cincinnatus Peeples, was brimful of wit and humor, and abounded in excellent ideas. He delighted his audience throughout the speech.

I must not forget to mention the Male High School, once taught by the famous Beman and Bates, and now successfully and ably managed by Captain Robert E. Park, A. M. It has, we learn, had over one hundred pupils the past year, and is certain to increase in patronage.

Mr. Park is a young man of energy, ambition and scholarly attainments, just suited to "build up" a school of high grade, if properly sustained. He employs excellent assistants also. The thorough examination of his students this year by the Board of Examiners, attracted marked attention. The prize declamation, two nights, was very fine. Colonel Long delivered a splendid address, and Dr. Stanley awarded the prizes in a chaste and appropriate speech. I wish I knew the names of the successful contestants, I would gladly send them to you for publication. LaGrange is improving, and does a large amount of business with neighboring counties. The railroad to Columbus is anxiously desired by all. It would pay well, and should be built by all means.

ASSOCIATED PRESS DISPATCHES.

Washington News.

WASHINGTON, June 8.—Revenue to-day $144,000.

Ex-Attorney General Hoar has departed for home.

The President departs on the 19th for his summer residence at Long Branch.

It is thought the President will convene the Senate in extra session.

The Congressional Printer, Clapp, is exonerated by the Senate from the charges against him.

The Conference Committee on the Funding bill is wide apart. Three reports are probable.

No important Southern appointments among those sent to the Senate to-day.

The House Judiciary Committee, by a vote of 6 to 4, voted against McCarrahan's claim.

Congressional.

In the Senate the bill relieving the political disabilities of seventy-five Kentuckians passed by 44 to 6.

The General Disability bill was taken up. This bill contains about 5,000 names. It was proposed to insert the name of A. O. P. Nicholson, of Tennessee, but objection was made and the name was withdrawn. Several names were stricken out and the bill then passed. The proposition to strike out the name of Ex-Senator Robert Johnson, of Arkansas, was negatived.

The Georgia bill was taken up. Yeas 29, nays 25. When, with a view of preventing debate, the Senate adopted a motion to non-concur in the House amendments to the bill as passed by the Senate, and ask for a Conference Committee. Yeas 34, nays 22.

The Senate is in session to-night.

In the House, the bill to pay bounty to the First Alabama Cavalry, and the First and Second Florida Cavalry, passed.

The bill to complete the Court-house and post-office at Knoxville, Tennessee, passed.

The House went into a Committee of the Whole on the additional Deficiency bill to pay the expenses of the Census and Department of Justice.

Amendments were offered to pay 20 per cent. additional to employees of the House for the 39th Congress, which provoked a discussion, in which Mr. Dawes declared that he would go to the country and tell the country that that party, which is responsible for the expenditure of the public money, had refused to hold itself up to the point of public economy; he had as much fidelity to the party as any living man, but had more fidelity for the good of the country. There was something above party, and he intended that the country should know on whom the responsibility for extravagance rested.

An amendment was adopted appropriating $170,000 to pay loyal men of the South who had assisted in taking the last census.

Bingham, from the Judiciary Committee, reported a bill to regulate the mode of determining the ratification of amendments to the Constitution.

The first section makes it the duty of the Executive of the State, whose legislature shall have ratified a proposed amendment, to certify forthwith such ratification to the Secretary of State of the United States.

The second section makes it unlawful for any State officer to certify thereafter to any repeal of such ratification, unless an amendment for repeal shall have been first proposed by Congress, and directed the Secretary of State not to take a record thereof.

The third section prescribes the penalty for the attempted repeal of such ratification by State authority as imprisonment from one to 10 years and a fine of from one to ten thousand dollars.

The rules were suspended and the bill passed; yeas 125, nays 54.

Bingham, from the Judiciary Committee, reported a joint resolution directing the Secretary of the Treasury to pay the lawful owners the net proceeds of all cotton seized after the 30th of June, 1865, having been made in violation of an injunction of the Treasury Department, and after the surrender of the rebel armies and the Proclamation of Amnesty. Butler, of Massachusetts, made the point of order that the bill made an appropriation and must be referred to the Committee of the Whole. The Speaker sustained the point. The bill was referred.

Of the $4,000,000 of additional currency provided by the act just passed, Virginia will receive as its proportion nearly 5,000,000; West Virginia nearly 500,000; Tennessee 4,000,000; Louisiana 5,425,000; Mississippi 3,000,000; Georgia 4,682,000; North Carolina 4,216,000; Alabama 4,000,000; Texas 2,000,000; Arkansas 1,455,000, and Florida 546,000.

FOREIGN.

PARIS, July 8.—No definite intelligence has been received from Prussia, but France will not be content with an evasive declaration of Count Von Bismarck that Prussia ought, in the interest of the peace of Europe, to withhold her consent for Hohenzollern to sit on the throne of Spain.

From semi-official journals, of this A.M., are gathered the following details touching the candidacy of the Prince of Hohenzollern: General Prim meant hostility when the Spanish Government notified the great powers of Europe of Hohenzollern's candidacy, on the 23d of July.

General Prim advised Senor Olazago, the Spanish Minister there, that he, General Prim, had chosen Prince Leopold, of Hohenzollern, and that the Spanish Ministry felt assured that the French Government would object to it; but that he depended on the higher sentiment of the Emperor. This proves that General Prim meant to act without the consent of the Emperor of France, has communicated with other powers of Europe, and in all cases, has received words of sympathy. All she seeks at Berlin and Madrid is to prevent political complications.

A dispatch recently forwarded to the Spanish Government, by the Duke of Grammont, was made public to-day.

The Duke says: France hopes Spain will renounce the only candidate for the throne, who is altogether disagreeable. He recalls the services of the French Government in Spanish affairs, by interdicting plots and arresting invading Carlists. Also urges the fact that France aided Spain in the establishment of a provisional government.

No answer has yet been received from Prussia since the declaration of the Secretary of Foreign Affairs in the Corps Legislatif a few days ago. On the morning of that day, however, a dispatch was received from Prussia to the effect that that government knew nothing of the candidacy of Prince H. to the throne of Spain.

A report that is well founded is in circulation that the Prussian Minister of War has ordered all general officers of the Prussian army to join their corps without delay. The memorial diplomatique says a French circular has been issued defining the situation.

MADRID, July 8.—The Discussion has an article on the throne question to-day, wherein it says Prince Hohenzollern's qualifications are indisputable; a beggar himself, he comes to rule a nation of beggars.

NIGHT DISPATCHES.

Washington News.

WASHINGTON, July 8.—It is positively asserted in the knowing circles that if the Georgia bill passes this session, it will contain a clause compelling an election this fall.

The President having signed the copyright law, the entire business is transferred to the Congressional library. The law franks all titles, books, etc., copyrighted at Washington.

The new Currency bill has been signed.

The naval examinations have closed. Twenty-nine admitted. Only three from Virginia and one from Alabama, from the South.

A delegation of Sioux Indians held a council with Parker to-day. The usual stories of poverty were recited, but while all professed friendship to the Government, no promises of using their efforts to prevent war were made. The Indians started home to-night, and will be loaded with presents for their families.

FOREIGN.

PARIS, July 7.—The Senate discusses the Hohenzollern affair on the 15th.

Nothing definite to-day from Prussia. Olazaga goes to Madrid to-night to endeavor to make arrangements satisfactory to all parties.

The embassadors from Austria, England and Italy conferred to-day with Grammont. They seem favorable to France.

Grammont received the Prussian minister to-day.

Napoleon conferred to-day with Ministers of War, Navy and Justice. Two of the French army corps are ready for immediate movement. Marshal Bazaine commands one, and General LeBrun the other. Marshal MacMahon will command the army. General LeBouef has an important command. Count Paletacco will command the troops operating against Spain. Active preparations are progressing at all the sea-ports.

WHY AKERMAN WAS APPOINTED.—Akerman being a Republican elector during the last Presidential campaign, made numerous speeches in support of Grant and Colfax, which were largely published and circulated throughout the State of Georgia, as well as having been copied into Northern papers. One of these speeches was cut out of an Atlanta paper and sent to General Grant by a prominent gentleman of that city, and in this way Mr. Akerman was brought to the notice of the President; and to this may be attributed the nomination of Mr. Akerman as Attorney-General of the United States.

WALTHAM WATCHES!

THE extensive use of these Watches for the last fifteen years by Railway Conductors, Engineers, and Expressmen, the most exacting of watch-wearers, has thoroughly demonstrated the strength, steadiness, durability and accuracy of the Waltham Watch. To satisfy that class in all these respects, is to decide the question as to the real value of these time-keepers.

More than 450,000 of these watches are now speaking for themselves in the pockets of the people—a proof and a guarantee of their superiority over all others.

The superior organization and great extent of the Company's Works at Waltham, enable them to produce watches at a price which renders competition futile, and those who buy any other watch merely pay from 25 to 50 per cent. more for their watches than is necessary.

We are now selling Waltham Watches at less prices in greenbacks, than the gold prices before the war. There is no other manufacture of any kind in the United States of which this can be said.

These time-pieces combine every improvement that a long experience has proved of real practical use. Having had the refusal of nearly every invention in watch-making originating in this country or in Europe, only those were finally adopted which severe testing by the most skillful artisans in our works, and long use on the part of the public, demonstrated to be essential to correct and enduring time-keeping.

Among the many improvements we would particularize:

The invention and use of a centre-pinion of peculiar construction, to prevent damage to the train by the breakage of main springs, is original with the American Watch Company, who, having had the refusal of all other contrivances, adopted Fogg's Patent pinion as being the best and faultless.

Hardened and tempered hair springs, now universally admitted by watchmakers to be the best, are used in all grades of Waltham Watches.

All Waltham Watches have dust-proof caps protecting the movement from dust and lessening the necessity of the frequent cleaning necessary in other watches.

Our new patent stem-winder, or keyless watch, is already a decided success, and a great improvement on any stem winding watch in the American market, and by far the cheapest watch of its quality now offered to the public. To those living in portions of the United States where watchmakers do not abound, watches with the above mentioned improvements which tend to insure accuracy, cleanliness, durability and convenience, must prove invaluable.

Every watch guaranteed by the Company.

To prevent imposition, buyers should see that every watch should bear either of the following trade marks:

American Watch Co..............Waltham, Mass.
Am'n Watch Co...................Waltham, Mass.
American Watch Co., Crescent St...........Waltham, Mass.
Appleton, Tracy & Co..........Waltham, Mass.
Waltham Watch Co...............Waltham, Mass.
P. S. Bartlett........................Waltham, Mass.
Wm. Ellery...........................Waltham, Mass.
Home Watch Co....................Boston, Mass.

For sale at retail by all respectable dealers.

A descriptive circular giving much useful information sent to any address on application.

No watches retailed by the Company.

TRADE MARK

ARGYLE BITTERS.

THE superiority of the above named article over any other Bitters is now admitted in every instance where a comparison has been made. The Proprietors most respectfully inform the public that the high reputation they have so justly acquired has been on their intrinsic merits alone. The ingredients used, in point of purity, excellence and medicinal qualities can not be surpassed, imparting a richness and delicacy of flavor heretofore unequaled by any combination of medicines having any claim for the relief of the following complaints, for which the

ARGYLE BITTERS

are especially recommended, viz:

Dyspepsia, Indigestion,
Diseases of the Stomach,
Nervousness, Jaundice,
Billious Complaints,
Costiveness, Cramps,
Flatulency, Griping Pains,
Heartburn, Liver Complaint,
Loss of Appetite,
Lowness of Spirits or Melancholy,
Pains in the Side or Back,
Sick and Nervous Headache,
Etc., Etc.

All the virtues of the true CALISAYA BARK are to be found in the ARGYLE BITTERS, making them the best Appetizer and gentle Tonic in all cases of General Debility and Derangement of the Stomach and Digestive Organs, that it is possible to produce.

Being mild in effect and pleasant to the taste, they are especially recommended to delicate females as a gentle soothing and invigorating tonic.

The following important Certificate from Dr. I. L. CRAWCOUR, an eminent Chemist and Physician of this city, speaks so favorably of the Argyle Bitters, we deem it superfluous to add anything further:

261 CAMP STREET, NEW ORLEANS,
September 1, 1869.

Messrs. Wheelock, Finlay & Co.:

GENTLEMEN—I have carefully examined your Argyle Bitters, and from my knowledge of their ingredients can safely recommend them as a good and reliable tonic and especially as a corrective of that morbid desire which so frequently affects those addicted to the use of ardent spirits. The chief ingredients being the best Calisaya Bark, renders them peculiarly fitted for the use of those residing in malarious districts, as they will not only act as a preventive against intermittent disease, but in a large number of cases may cure it when it has made its appearance.

A NEW DISCOVERY!!

PHALON'S

"VITALIA;"

OR,

Salvation for the Hair.

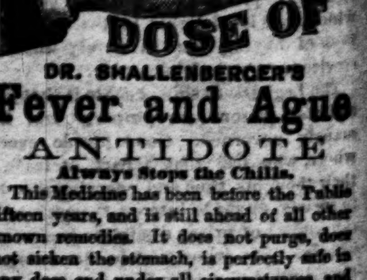

CLEAR AS WATER!
WITHOUT SEDIMENT!!
OPEN TO THE LIGHT!!!

For Restoring to Gray Hair its Original Color.

PHALON'S "VITALIA" differs utterly from all the hair coloring preparations heretofore used. It is limpid, sweet smelling, precipitates no muddy or slimy matter, requires no shaking, imparts no stain to the skin. Hold it to the light and it is clear and cloudless. It leaves no mark on the scalp; yet it reproduces in gray hair the natural color that time or sickness may have bleached out of it.

☞ Phalon's Vitalia ☜ is for one sole purpose, that of reproducing, with absolute certainty, the natural color of the hair. It is not intended as a daily dressing, nor for removing scurf or dandruff; nor for curing baldness; nor for stimulating the growth of the hair.—These objects may be accomplished after the color has been fixed with the Vitalia, by Phalon's Chemical Hair Invigorator.

THE VITALIA is a harmless and unequaled preparation for the reproduction of the original hue of gray hair, and nothing else. This is accomplished in from two to ten applications according to the depth of shade required. Sold by all druggists.

CAPTAIN J. L. JOHNSON, 1st Deputy Marshal, yesterday, arrested a man named J. L. Hardwick, on a dispatch signed by Marshal Scott, of Montgomery, Alabama, who gave a full and minute description of the man, though alleging no crime. He had registered at the American Hotel under an assumed name. After arresting him, Marshal Johnson telegraphed Marshal Scott about it, and received a reply that he had the right man, and to hold on to him, that a requisition from the Governor of Alabama, for Hardwick, would leave on the next train. Hardwick sued out a writ of habeas corpus before Judge Pittman, and was discharged on the ground that no crime was alleged. By the time the requisition arrives he will be —— non est.

MISS FANNIE HOLMES' SCHOOL FOR BOYS AND GIRLS.—The closing exercises of the first session of this school came off at Trinity Church basement yesterday. We confess to have never witnessed a more interesting assemblage of "little folks," and to have more heartily enjoyed such a literary feast as was presented on the occasion. Miss Holmes seems peculiarly adapted to her profession—that of educating the young. The proficiency displayed by the pupils, in declamation and composition, reflected much credit on teacher as well as pupil. By some, Miss H. would be termed an old fogy in teaching, as she ignores the popular idea of the rapid advancement by the young in the languages before the foundation is laid in the simple *rôle* of English grammar, reading, writing and orthography. Her pupils evince a rare knowledge of these minor branches, as some are disposed to call them, and displayed, on yesterday, an unusual proficiency in them. We were peculiarly struck with the valedictory address, as it was replete with original ideas that would have reflected credit upon older heads. All the accomplishments in refined manners are strictly taught here, and guarded with great care by the teacher. We heartily commend this school to the patronage of the public, and those having children to educate cannot place them under better tutalige than that of Miss Holmes.

[From the Norfolk Daily Journal, Dec. 11, 1869.]

KOSKOO.—This medicine is rapidly gaining the confidence of the people, and the numerous testimonials of its virtues, given by practitioners of medicine, leaves no doubt that it is a safe and reliable remedy for impurity of the blood, liver disease, etc.

The last Medical Journal contains an article from Prof. R. S. Newton, M. D., President of the E. Medical College, city of New York, that speaks in high terms of its curative properties, and gives a special recommendation of Koskoo to the practitioners of medicine. This is, we believe, the first instance where such medicines have been officially endorsed by the Faculty of any of the medical colleges, and reflects great credit upon the skill of Dr. Lawrence, its compounder, and also puts "Koskoo" in the van of all other medicines of the present day. feb26-d&wom

A STUBBORN FACT.—There is scarcely any disease in which purgative medicines are not more or less required, and much suffering might be prevented were they more generally used. No person can feel well while a costive habit of body prevails; besides, it soon generates serious diseases which might have been avoided by a timely use of Cathartic Medicines. For this purpose DR. TUTT'S VEGETABLE LIVER PILLS are confidently recommended; they are mild, safe, prompt and uniform in their action. They contain no Mercury. Persons may eat and drink as usual, and they may be taken at any time. july5d1w

"A THING OF BEAUTY IS A JOY FOREVER."—What is it? Something prepared for women only, and to be used by women exclusively. It is adapted especially to cases where the womb is disordered, and will cure all *irregularities* of the "menses" or "monthly courses," by restoring the discharge in every instance whether acute or chronic. Where is it? Dr. J. Bradfield's Female Regulator—Woman's Best Friend—is prepared and sold by L. H. Bradfield, Druggist, Atlanta, Ga., and may be bought for $1 50 per bottle at any respectable Drug House in the Union. june21-dtf

THE WIFE—Both before and after she has become a matron—will find PLANTATION BITTERS literally a present help in time of trouble; and, under no circumstances or condition, can it prove otherwise than beneficial. During nursing it may be taken as an invigorant, with great advantage both to mother and infant; and, when maternal anxiety is awakened by the failing appetite, unnatural languor, and general indisposition of a delicate daughter, there is no tonic or alterative which will work such a rapid and healthful change in the condition of the fair invalid as PLANTATION BITTERS. For the morning lassitude and depression of spirits, caused by late hours and what is called fashionable dissipation, there is nothing comparable to this famous vegetable restorative.

Persons who have once tasted Blanc Mange Puddings, Custards or Creams made from SEA MOSS FARINE, and served with good rich cream or milk, will never need coaxing to use it, as it makes one of the most delicious, nutritious, economical and health-giving articles of food ever provided by a bountiful providence. july5deod1w&w1t

MEMBERS of the Legislature and visitors in the city, are invited to call at J. M. Holbrook's Hat Store, and examine his full stock of summer hats, embracing all the latest and best styles. A BROADSIDE FOR HUMBUGS.—Incompetence and assurance generally go hand in hand, and of all the tribe of pretentious know-nothings with which society is afflicted, the unscientific "medicine men" who attempt to tamper with the health of the community are the most dangerous and the most impudent.

So much by way of text; now for a special and particular application.

It appears that a mushroom growth of so-called "Bitters" is springing up under different names in various localities, particularly in the Southern and Western States, which the vendors have the hardihood to recommend to easy-going people upon whom they think they can impose, as a substitute for Hostetter's Stomach Bitters, long recognized by every class as the purest and best medicated stimulant and invigorant the world affords.

The concoctions referred to being composed of worthless material, offer a larger margin for profit than that Celebrated Tonic, and hence the anxiety of dollar-worshipping dealers to foist them upon the public in its place.

But "forewarned is forearmed," and all parties whom these distinguished beings(!) are endeavoring to coax and inveigle into substituting trash for a standard remedy, are hereby informed of the selfish and sordid motives which underlie the representations in question.

The great popularity and vast sales of Hostetter's Bitters cannot, of course, be seriously impaired by these "tricks of trade," but as the dibilitated and suffering have a direct interest in the matter, it is only an act of common humanity to put them on their guard. july5deod1w&w1t

McBride & Co.--Gents: Enclosed find $---, for the China I purchased of you last week. It came safely to hand --not a piece broken or scratched. All of our friends who have seen it are highly pleased, and think very pretty and very cheap. I hope soon to send you an order for duplicates.

Did not succeed so well at first with the "Eureka," but am gradually getting at the idea of proper proportions of water and coffee. All who have tried the coffee think it a grand success, so far as the flavor and taste of the coffee is concerned. Will give it a fair trial.

DR. JOHN BULL'S Great Remedies.

DR. JOHN BULL,

Manufacturer and Vender of the Celebrated

Smith's Tonic Syrup,

FOR THE CURE OF

AGUE AND FEVER,

—OR—

Chills and Fever.

The proprietor of this celebrated medicine justly claims for it a superiority over all remedies ever offered to the public for the safe, certain, speedy and permanent cure of Ague and Fever, or Chills and Fever, whether of short or long standing. He refers to the entire Western and Southwestern country to bear him testimony to the truth of the assertion, that in no case whatever will it fail to cure, if the directions are strictly followed and carried out. In a great many cases a single dose has been sufficient for a cure, and whole families have been cured by a single bottle, with a perfect restoration of the general health. It is, however, prudent, and in every case more certain to cure, if its use is continued in smaller doses for a week or two after the disease has been checked, more especially in difficult and long-standing cases. Usually, this medicine will not require any aid to keep the bowels in good order; should the patient, however, require a cathartic medicine, after having taken three or four doses of the Tonic, a single dose of BULL'S VEGETABLE FAMILY PILLS will be sufficient.

Bull's Worm Destroyer.

To my United States and World-wide Readers.

I have received many testimonials from professional and medical men, as my almanacs and various publications have shown, all of which are genuine. The following letter from a highly educated and popular physician in Georgia, is certainly one of the most sensible communications I have ever received. Dr. Clement knows exactly what he speaks of, and his testimony deserves to be written in letters of gold. Hear what the Doctor says of BULL'S WORM DESTROYER:

VILLANOW, Walker County, Ga., June 29, 1869.

DR. JOHN BULL—Dear Sir: I have recently given your "Worm Destroyer" several trials, and find it wonderfully efficacious. It has not failed in a single instance to have the wished for effect. I am doing a pretty large country practice, and have daily use for some article of the kind. I am free to confess that I know of no remedy recommended by the ablest authors that is so certain and speedy in its effects. On the contrary, they are uncertain in the extreme. My object in writing you is to find out upon what terms I can get the medicine direct from you. If I can get it upon easy terms, I shall use a great deal of it. I am aware that the use of such articles is contrary to the teachings and practice of a great majority of the regular line M. D.'s but I see no just cause or good sense in discarding a remedy which we know to be efficient, simply because we may be ignorant of its combination. For my part, I shall make it a rule to use all and any means to alleviate suffering humanity which I may be able to command—not hesitating because some one more ingenious than myself may have learned its effects first, and secured the sole right to secure that knowledge. However, I am by no means an advocate or supporter of the thousands of worthless nostrums that flood the country, that purport to cure all manner of disease to which human flesh is heir. Please reply soon, and inform me of your best terms. I am, sir, most respectfully,

JULIUS P. CLEMENT M. D

Bull's Sarsaparilla.

A Good Reason for the Captain's Faith.

READ THE CAPTAIN'S LETTER AND THE LETTER FROM HIS MOTHER.

BENTON BARRACK'S, Mo., April 30, 1866.

DR. JOHN BULL—Dear Sir: Knowing the efficiency of your Sarsaparilla, and the healing and beneficial qualities it possesses, I send you the following statement of my case.

I was wounded two years ago—was taken prisoner and confined for sixteen months. Being moved so often, my wounds have not healed yet. I have not sat up a moment since I was wounded. I am shot through the hips. My general health is impaired, and I need something to assist nature. I have more faith in your Sarsaparilla than in anything else. I wish that that is genuine. Please express me half a dozen bottles, and oblige.

Capt. C. P. JOHNSON, St. Louis, Mo.

P. S.—The following was written April 30, 1865, by Mrs. Jennie Johnson, mother of Captain Johnson:

DR. BULL—Dear Sir: My husband, Dr. C. S Johnson, was a skillful surgeon and physician in Central New York, where he died, leaving the above C P. Johnson to my care. At thirteen years of age he had a chronic diarrhœa and scrofula, for which I gave him your Sarsaparilla. IT CURED HIM. I have for ten years recommended it to many in New York, Ohio and Iowa, for scrofula, fever scores and general debility. Perfect success has attended it. The cures effected in some cases of scrofula and fever sores were almost miraculous. I am very anxious for my son to again have recourse to your Sarsaparilla. He is fearful of getting a spurious article, hence his writing to you for it. His wounds were terrible, but I believe he will recover.

Respectfully, JENNIE JOHNSON

BULL'S CEDRON BITTERS

AUTHENTIC DOCUMENTS.

ARKANSAS HEARD FROM.

Testimony of Medical Men

STONEY POINT, White Co., Ark., May 23, 1868.

DR. JOHN BULL—Dear Sir: Last February I was in Louisville purchasing drugs, and I got some of your Sarsaparilla and Cedron Bitters.

My son-in-law, who was with me in the store, has been down with rheumatism for some time, commenced on the Bitters, and soon found his general health improved.

Dr. Gist, who has been in bad health, tried them, and he also improved.

Dr. Coffee, who has been in bad health for several years—stomach and liver affected—he improved very much by the use of your Bitters. Indeed, the Cedron Bitters has given you great popularity in this settlement. I think I could sell a great quantity of your medicines this fall, especially of your Cedron Bitters and Sarsaparilla. Ship me via Memphis, care Rickett & Neely.

Respectfully, C. B. WALKER.

UNIVERSAL LIFE INS. Co.

—NEW YORK—

The Original Joint-Stock Life Ins. Co. of the United States.

The business of this Company is EXCLUSIVELY confined to the Insurance of first class healthy lives.

THE DISTINCTIVE FEATURE

of the *Stock* system of Life Insurance, as opposed to the *Mutual*, is a low rate of premium for a stated sum insured, which is IMMEDIATE, SECURE and CERTAIN; in lieu of a high rate of premium [illegible] promised dividend, which is [illegible] with a [illegible] and UNCERTAIN; this [illegible], CONTINGENT merely a return [illegible] so-called dividend being [illegible] of a portion of the excessive and [illegible] necessary premium charged in the first instance.

ILLUSTRATION.

Suppose that an individual aged thirty desires to devote $200 a year for the purpose of effecting an insurance on his life; this amount will immediately secure him in the UNIVERSAL, the sum of $11,751, payable on his decease. This sum, paid to a company charging the ordinary mutual rates, would secure him the sum of $8,474—difference, *immediately secured*, in favor of the UNIVERSAL, $3,277.

To illustrate the importance to the policy-holder of low premiums in more general terms, it may be stated that by a reduction of *twenty-five* per cent. in the rate of premium, the same amount of money will secure a policy *thirty-three and one third* per cent. greater, and likewise that a reduction of twenty-five per cent. in the rate of premium is precisely equivalent to an *annual cash dividend of thirty three and one-third per cent. payable in advance*, or to a dividend of *forty-five per cent. payable at the end of the year.*

By the *Stock* plan the *full cash effect* of the premium is immediately secured to the insured; the Company taking all the risk. By the Mutual plan the full value in insurance of the premium paid, is not secured to the policy-holder, who takes a portion of the risk himself.

THE PREMIUMS

charged by the Universal are as low as the actual experience of insured life in this country will justify, and on the ordinary Life and Ten-Year Non-forfeiture policies are nearly one-third lower than those charged by the majority of Mutual Companies.

Special attention is asked to our "*Return Premium Plan*," by which the amount of the policy is secured simply by the temporary deposit of the annual premiums, which are returned in full, together with the amount assured, to the holder of the policy when it shall become a claim upon the Company. Also to the

"REDUCTION OF PREMIUM PLAN,"

by which a reduction of *one-third* is made in the premium after the first annual payment, being, in fact, equivalent to a *dividend* of 33⅓ per cent. A clause is inserted in the policies issued by the "Universal," in which these results are *distinctly specified and guaranteed.*

ROSADALIS!

THE Great American Health Restorer, purifies the blood and cures Scrofula, Syphilis, Skin Diseases, Rheumatism, Diseases of Women, and all Chronic Affections of the Blood, Liver and Kidneys. Recommended by the Medical Faculty and many thousands of our best citizens.

Read the testimony of Physicians and patients who have used Rosadalis; send for our Rosadalis Guide to Health Book, or Almanac for this year, which we publish for gratuitous distribution; it will give you much valuable information.

Dr. R. W. Carr, of Baltimore, says:

I take pleasure in recommending your Rosadalis as a very powerful alterative. I have seen it used in two cases with happy results—one in a case of secondary syphilis, in which the patient pronounced himself cured after having taken five bottles of your medicine. The other is a case of Scrofula of long standing, which is rapidly improving under its use, and the indications are that the patient will soon recover. I have carefully examined the formula by which your Rosadalis is made, and find it an excellent compound of alterative ingredients.

Dr. Sparks, of Nicholasville, Ky., says he has used Rosadalis in cases of Scrofula and Secondary Syphilis with satisfactory results—as a cleaner of the Blood I know no better remedy.

Samuel G. McFadden, Murfreesboro', Tenn., says:

I have used seven bottles of Rosadalis, and am entirely cured of Rheumatism; send me four bottles, as I wish it for my brother, who has scrofulous sore eyes.

Benjamin Bechtol, of Lima, Ohio, writes I have suffered for twenty years with an inveterate eruption over my whole body; a short time since I purchased a bottle of Rosadalis and it effected a perfect cure.

Rosadalis is sold by all Druggists.

This Preparation surpasses all others of its class as a Hair Renewer.

It is thorough in its action upon Gray or Faded Hair and its effect permanent.

It produces but one distinct shade, while others leave the hair in many varied colors.

It promotes growth when others fail to reproduce a single hair.

It does not crisp or dry the hair, but leaves it moist and glossy.

Ladies find it superior to any other as a Toilet Dressing.

The ingredients used in this Preparation are the very best that can be found, and are as harmless as water.

SEASON, 1870.

MONTVALE SPRINGS,

Blount County, East Tennessee.

THIS favorite Summer Resort for the invalid and pleasure-seeker will be open for the reception of visitors, JUNE 1st, 1870.

The most marked beneficial results attending the use of these waters, in functional derangements of the Liver, Bowels, Kidneys and Skin, and the cure of Chronic Diseases, attest the Medical Properties of these Waters.

Situated at the base of the Chilhowee Mountains, it presents the strongest attractions to both the invalid and the pleasure seeker, as well on account of its pure invigorating atmosphere and the beauty of the surrounding scenery, as on account of the Restorative Powers of its waters.

Such provision has been made for the Comfort of visitors, that the Proprietor confidently promises satisfaction to his guests.

Daily Coaches, with mail and passengers, run between Maryville, the terminus of the Railroad from Knoxville, and the Springs, distant nine miles, over good roads.

Board per day $2 50; per week $15 00; per month, $50 00.

Address, for descriptive pamphlets,

JOS. L. KING, Proprietor,

june15-d3m Knoxville, Tennessee.

Chattahoochee House,

WEST POINT, GA.

THIS well known Railroad Dinner House has recently undergone thorough repairs, and the Proprietor is now better prepared to accommodate his guests than formerly.

The Bar is supplied with the choicest Wines, Liquors and Cigars.

LIFE.

BY MOINA.

A baby played with the surplice sleeve
Of a gentle Priest—while in accents low
The sponsors murmured the grand "I believe,"
And the Priest bade the mystic waters flow—
"In the name of the Father, of the Son,
And of the Holy Spirit"—Three in One.

Spotless as a lily's leaf!
Whiter than the Christmas snow!
Not a shade of sin or grief—
And the babe laughed sweet and low.

A smile flitted over the baby face—
Or was it the gleam of its angel's wing
Just passing then? and leaving a trace
Of its presence, as it soared to sing
A hymn, when words and waters win
To grace and life—a child of sin.

Not an outward sign or token
That the child was saved from woe—
But the bonds of sin were broken,
And the babe laughed sweet and low.

A cloud rose up to the mother's eyes—
And out of the cloud grief's rain fell fast;
Came the babe's smiles and the mother's sighs
Out of the future or the past?
Ah! gleam and gloom must ever meet
And gall must mingle with the sweet!

Yea! upon her baby's laughter
Trickled tears—'tis alway so—
Mothers dread the dark Hereafter—
But her babe laughed sweet and low.

And the years, like waves, broke on the shore
Of the mother's heart, and her baby's life—
But her lone heart drifted away before
Her little boy knew an hour of strife!
Drifted away on a summer eve
Ere the orphaned boy knew how to grieve.

Her humble grave was gently made
Where roses bloomed in summer's glow;
The wild birds sang where her heart was laid;
And her boy—laughed sweet and low.

He floated away from his mother's grave
Like a fragile flower on a bright stream's tide;
Till he heard the moan of the mighty wave
That welcomed the stream to the ocean wide!
Out from the shore and over the deep,
He sailed away—and he learned to weep!

Furrowed grew the face, once fair,
Under storms of human woe;
Silver-grey the bright, brown hair;
And he wailed so sad and low.

And year swept on, as erst they swept;
Bright wavelets once—wild billows now;
Wherever he sailed—he ever wept,
And a cloud hung o'er his brow.
Over the deep, and into the dark;
But no one knew where sank his bark.

Wild roses watched the mother's tomb,
The world still laughed—'tis ever so;
God only knew the baby's doom
That laughed so sweet and low!

City and Suburban Affairs.

S. K. JOHNSON, Superintendent of the Georgia Road, is in the city.

Editors Constitution—Dear Sir: In the advertisement of Dr. Hooten, in your paper, I notice Dr. Jesse Boring referred to as "Professor Atlanta Medical College." Dr. Boring is not connected with the Atlanta Medical College, and consequently would doubtless not only be willing, but be pleased to have the mistake rectified.

A MEMBER OF THE FACULTY.

July 8, 1870.

SENATOR SMITH, of the 7th, states that his position on the *per diem* question is different from that reported in the Legislative proceedings, which doubtless grew out of a misunderstanding of it by the reporter. He says that he is opposed to the $9 *per diem*, and would vote now for a reduction of both per diem and mileage, as advocated by himself twelve months ago. But as he had taken, with the balance of the Senators, the $9 *per diem*, he didn't propose to make any unnecessary fuss about it. Still, he did not believe it to be right.

Troup County Crops.

TROUP COUNTY, July 7, 1870.

Editors Constitution: Information respecting the condition of the crops may not prove altogether uninteresting to some of your readers, since in the prosperity of the farmer, his is the prosperity of the country. Cotton can hardly be called a mythical king in this county; yet she has many idolaters, and her shrines may be seen every where. The alternating dry and wet spells of the early spring made cotton somewhat backward, and for the past few weeks the rains have been so heavy that they have not only given rise to a quantity of grass, but also a multitude of lice, which in some parts of the county are very destructive. But we hope, with a few fair days and earnest labor, to be able to destroy both the grass and insects. Where guanos have been used, there is a marked difference in the crop; where before on the red hills a little puny stalk grew, now we see a healthy, vigorous stalk, thereby demonstrating to the farmer the great importance of using fertilizers. Corn, though backward, is promising. Better prospects for an abundant harvest of corn than has been estimated for many years. Fine crop of oats have been saved. Wheat crops have exceeded the anticipations of the most sanguine. Peach crop scarce and very poor. Apples in abundance. Vegetables never better. Upon the whole, the prospects of old Troup are rather flattering. I feel confident that if we are allowed [illegible] this fall, we will send staunch delegates to represent us. G.

Gwinnett County—Fourth [illegible]—Crops—Railroads—Politics.

LAWRENCEVILLE, GA., July 4, 1870.

Editor Constitution: The time has been when the Fourth of July was hailed by our people as the birth day of American liberty, but now not noticed. Has been have the citizens, in days gone by, to commemorate the day that declared independence; have a barbecue; the Constitution of the United States, declaration of Independence; listen to some orator in a speech upon the occasion. These days that we all once loved are forever gone, and we may say that these are some of the last days of American liberty.

Crops are tolerably good. Wheat is a little damaged by excessive rains during harvesting; the crop will be above an average one. Oats were cut off somewhat by the May drought. Corn is good where the land is able to produce it. Cotton looks well generally; some crops are badly in the grass; as to the yield we can only speculate. We may gather an abundant crop of cotton, or a very small one, though the prospect is flattering; the weed is very full of sap, and not very thickly set with squares; a little drought or two much rain either might injure the crop materially; we have no blooms yet.

Our county has not the facilities of railroads, as many of the counties in Georgia have. The Air-Line runs through one side of our county, now built, but we hope soon to have a railroad running through our county from Macon to Knoxville, Tennessee, which certainly would be one of the best paying roads in the South.

As to politics, the people are quiet. All we want to put the right men in office is a fair opportunity. I do not know of a man in Gwinnett that would vote for Rufus B. There may be some that might. Our county was largely for the Union before the war, and is still for the perpetuity of the Union upon the principles of the Constitution of our fathers. We want our Governors and public men to attend to the office that is given them by the people; and if they fail or refuse, or get to running to Washington, wasting our hard earnings to buy up Congressional oppression, all we want is the privilege of freemen at the ballot-box.

Our people are readers of THE CONSTITUTION, and think it one of the best papers in the State. GWINNETT.

MUDDLE AT ATLANTA.—Things political about Atlanta have become so terribly befogged and odoriferous, that we have kept at a respectful distance for fear of striking a stench or shell. Bullock, Angier and Gaskill are a moral and political puzzle to us in the rural districts. How Bullock provided Gaskill with the toasted cheese, how Gaskill skillfully baited the trap, and how the old treasury rat run his head into the trap, and how all the illustrious trio were killed off at a single spring of the infernal machine, is a study for us verdant burghers. Mr. Gaskill has tried his hand at many things. We think his trap the great success of Radical development. In view of this fact, we beg Governor Bard, of the True Georgian, to pardon the trio, especially Gaskill.—*Greensboro Herald.*

KOSKOO!

THE GREAT REPUTATION

Which KOSKOO has attained in all parts of country

AS A GREAT AND GOOD MEDICINE!

And the Large Numbers of Testimonials

which are constantly being received from Physicians, and persons who have BEEN CURED by its use, is CONCLUSIVE PROOF OF ITS REMARKABLE VALUE.

AS A BLOOD PURIFIER,

IT HAS NO EQUAL,

BEING POSITIVELY

The Most Powerful Vegetable Alterative Yet Discovered.

DISEASES OF THE BLOOD.

"The life of the flesh is in the Blood," is a scriptural maxim that science proves to be true. The people talk of bad blood, as the cause of many diseases, and like many popular opinions, this of bad blood is founded in truth.

The symptoms of bad blood are usually quite plain—bad Digestion—causes imperfect nutrition, and consequently the circulation is feeble, the soft tissues loose their tone and elasticity, and the tongue becomes pale, bread, and frequently covered with a pasty, white coat. This condition soon shows itself in *roughness* of the skin, then in ERUPTIVE and ULCERATIVE diseases, and when long continued, results in serious lesions of the Brain, Liver, Lungs, or urinary apparatus. Much, very much, suffering is caused by impure blood. It is estimated by some that one-fifth of the human family are effected with scrofula in some form.

When the Blood is pure, you are not so liable to any disease. Many impurities of the Blood arise from impure diseases of large cities. Eradicate every impurity from the fountain of life, and good spirits, fair skin and vital strength will return to you.

KOSKOO,

AS A

Liver Invigorator!

STANDS UNRIVALLED.

Being the only KNOWN Medicine

that EFFICIENTLY *stimulates* and CORRECTS the *hepatic secretions* and functional DERANGEMENTS of the LIVER, WITHOUT DEBILITATING the system. While it acts *freely* upon the Liver *instead of copious purging*, it *gradually changes* the discharges *to a perfectly natural state.*

SYMPTOMS OF LIVER COMPLAINT AND OF SOME OF THOSE DISEASES PRODUCED BY IT.

A sallow or yellow color of the skin, or yellowish-brown spots on the face and other parts of the body; dullness and drowsiness, sometimes, headache; bitter or bad taste in the mouth, internal heat; in many cases a dry, teasing cough; unsteady appetite; sometimes sour stomach, with a raising of the food; a bloated or full feeling about the stomach and sides; aggravating pains in the side, back, or breast, and about the shoulders; constipation of the bowels; piles, flatulence, coldness of the extremities, etc.

KOSKOO!

Is a remedy of *Wonderful Efficacy* in the *cure* of diseases of the Kidneys and Bladder. In these Affections it is as near a specific as any remedy can be. It does its work kindly, silently, and surely. The Relief which it affords is both certain and perceptible.

DISEASES OF THE KIDNEYS AND BLADDER.

Persons unacquainted with the structure and functions of the Kidneys can not estimate the *importance* of their *healing action*.

Regular and sufficient action of the Kidneys is as important, nay, even more so, than regularity of the bowels. The Kidneys remove from the Blood those effete matters which, if permitted to remain, would speedily destroy life. A total suspension of the urinary discharges will occasion death from thirty-six to forty-eight hours.

When the Urine is voided in small quantities at the time, or when there is a disposition to Urinate more frequently than natural, or when the Urine is high colored or scalding with weakness in the small of the back, it should not be trifled with or delayed, but Koskoo should be taken at once to remedy the difficulty, before a lesion of the organs takes place. Most of the diseases of the Bladder originate from those of the Kidneys, the Urine being imperfectly secreted in the Kidneys, prove irritating to the Bladder and Urinary passages. When we recollect that medicine never reaches the Kidneys through the general circulation of the Blood, we see how necessary it is to keep the Fountain of Life Pure.

KOSKOO!

Meets with GREAT SUCCESS in the CURE of

DISEASES OF THE NERVOUS SYSTEM,

Almost nine-tenths of our people suffer from nervous exhaustion, and are, therefore, liable to its concomitant evils of mental depression, confused ideas, softening of the brain, insanity, and complete breaking down of the general health. Thousands are suffering to-day with broken-down nervous systems, and, unfortunately, tobacco, alcohol, late hours, over-work (mental and physical), are causing diseases of the nervous system to increase at a fearful rate.

The symptoms to which diseases of the nervous system give rise, may be stated as follows:

A dull, heavy feeling in the head, sometimes more or less severe pain or headache; Periodical Headache, Dizziness, Noises or Ringing in the Head; Confusion of Ideas; Temporary Loss of Memory; Dejection of Spirits; Starting during Sleep; Bad Dreams; Hesitation in Answering Questions; Dullness of Hearing; Twitching of the Face and Arms, etc., which, if not promptly treated, lead to Paralysis, Delirium, Insanity, Impotency, Apoplexy, etc., etc.

SWEET QUININE

IS A RECENT IMPROVEMENT.

Replaces the use of the Bitter Sulphate Quinine, with which all are familiar.

Dose for dose, it is

WARRANTED

Fully Equal in Every Way to Bitter Quinine,

And like it, is the one

Great, Positive, and Unfailing CURE

FOR ALL DISEASES OF MALARIOUS ORIGIN.

Fever and Ague,
Intermittent Fever,
Chill Fever,
Remittent Fever,
Bilious Fever,
Dumb Ague.

And the long train of disorders following these when neglected.

SWEET QUININE

is made solely from PERUVIAN BARK (so is Bitter Quinine,) therefore is of Vegetable origin, and not a Mineral Poison, but on the contrary is proved to be one of the elements found in the blood of all healthy persons.

SWEET QUININE

acts as an antidote to, as well as a cure for malarial or miasmatic poison, the absorption of which by the lungs causes Intermittent Fevers, etc. The only advantage claimed for

SWEET QUININE

over the use of old Bitter Quinine is the entire absence of that intense, persistent bitterness, which in the latter is an insurmountable obstacle to its use with most persons, and always with children.

SWEET QUININE

is in two forms—in Powder, for the use of Physicians and Druggists, and Fluid, for use in the family and for the general public.

Yankee Notions, Boots and Shoes, Hats, Caps and Straw Goods.

KEEP constantly on hand a large assortment in every department selected with great care and bought at the lowest prices from Importers and Manufacturers, and which we are able to offer to the Trade at prices to correspond with the late decline in Gold.

Our WHOLESALE DEPARTMENT is up-stairs, and entirely separate from our Retail Department, and we are prepared to offer great inducements to COUNTRY MERCHANTS, who are respectfully invited to examine our Stock before purchasing elsewhere.

We are Agents for the Princeton Factory, Athens, Ga., and sell at Factory Prices the PREMIUM COTTON YARNS, first Premium awarded, State Fair, 1869; also, their heavy Shirting, Plaid Osnaburgs and Stripes.

Also, Sole Agents for Bramly & Woods' PREMIUM HOME-MADE SHOES. These were awarded the highest Premiums at the State Fair, 1869, and the Silver Cups are here on exhibition. apr24-d

COAL!

OUR experience for the last four winters teaches us that the demand for Coal in the winter time is greater, (and will continue greater) than the facility for transportation; therefore we think it to the interest of consumers to lay in their supply this summer, as it saves trouble and high prices. We will deliver on the cars, by the car load, SEWANEE COAL, at the following prices:

Lump Coal .... 26 cents per bushel
Run of Mines .... 23½ " "
Fine .... 22 " "

Orders left at Atlanta Ice House will be promptly filled. PELHAM & CO.
